FRENCH AMBASSADOR
LEAVES CONSTANTINOPLE

Sultan's Procrastinating Methods Lead to Fresh
Break in Diplomatic Relations.

Trying to Avoid Payment of Claims Which M. Constans
Has Demanded.

Paris, Aug. 26.—Sultan Abdul Hamid's persistence in procrastinating methods continues to disturb the Turkish relations with France. His dragging satisfaction in the quays question was taken as indicating that he would accept the entire French claims, but M. Constans telegraphed yesterday that the sultan was still holding out against the claims payment of the three Frenchmen, dating back many years, and amounting to several million francs, for which M. Constans demanded a settlement and declares he will leave Constantinople today unless the matter is settled.

This action, however, will only be a manifestation of the dissatisfaction, and not a rupture of relations, as the council of the French embassy will take over the affairs of the embassy and continue the investigations. M. Constans ostensibly will leave on a vacation. No word has been received from him yet regarding today's developments.

Constantinople, Aug. 26.—The amount of the indemnity which the sultan agrees to pay the quays company for interference with its rights is 700,000 francs. The sultan will also pay 600,000 francs to a Frenchman on account of the seizure of his lands in Albania. The company renounces for a year the clause in its concession regarding the transfer of the quays to Turkey, only, it is believed, to save appearances for the sultan.

M. Constans, the French ambassador, after making farewell calls on his colleagues yesterday, left here today on board the Vautour for Stamboul, where he will take the train.

London, Aug. 26.—The dispatch from Constantinople announcing that the French ambassador, M. Constans, left today, is not understood either in London or Paris, though it is not believed that it means further difference between France and Turkey. The supposition is that M. Constans is taking a holiday.

SAYS SACRIFICE OF LIFE IS WELL
MADE IN INTEREST OF SCIENCE

New York, Aug. 26.—Dr. A. H. Doty, discussing the death in Havana of Miss Clara Maass, reiterated his recently expressed opinion that the results achieved fully warranted the experiments that are being carried on in Cuba.

"We must not look simply at the deaths of the three persons in Havana," said Dr. Doty, "but we must consider also the incalculable number of lives that will be saved by the use of quinine and other means of the sanitary conditions that favor the propagation of mosquitoes."

"We now know beyond question that people must protect themselves by netting, especially at night, from mosquitoes in districts infested with yellow fever, and that they must get rid by drainage and other means of the unsanitary conditions that favor the propagation of mosquitoes."

DARING THIEVES
STEAL BIG SHIP THAT DID NOT COME

New York, Aug. 26.—A three-masted schooner, Sallie O. Marvill, was stolen from the docks of the Sharps, Md., Marine railway some time on Saturday night. A special to the Tribune from Laurel, Del., says that the vessel had just been captured and is valued at \$20,000.

She was stealthily taken from her moorings at about midnight by a team of men. The work was so quickly done that even the bridge tender was not awakened. While hurriedly en route to Virginia, where the vessel was to be taken, the men were met by a small tug, which was in the draw bridge of the R. C. & A. R. at Vienna, Md., and damaged the bridge in such a manner that it will be impossible to resume traffic over the road within forty-eight hours. The Marvill was owned by Laurel capital.

FOUR MEET DEATH
IN FALLING BRIDGE

Columbia, S. C., Aug. 26.—An accident at the new bridge which the Southern railroad is constructing at Congaree river today caused the death of four men. One other was fatally and two more seriously injured.

The falling of the steel girders about seven feet long, weighing fourteen tons each, caused the accident. The girders were hoisted about midway of the river above the bridge. The rains of the night prevented them from being hoisted. The ropes holding them in place slipped, and the crash came without the slightest warning. There were seventy-five people on the bridge, spectators and workmen.

"Bimetallism is still an issue, but the United States is better off today than at any time in the past," he said.

Speaking of the proposed reorganization of the Democratic party, he said: "I have received W. J. Bryan to be the most powerful man in the Democratic party today."

SHAFER DEALS A BLOW
AT PEACE NEGOTIATIONS

Says Efforts to Bring About Settlement Are Not
Authorized by the Strikers.

General Feeling, However, That the Trouble Will Be
Adjusted—Both Sides Claim Victory.

Pittsburg, Aug. 26.—Reported peace negotiations for the settlement of the strike through the mediation of disinterested parties—officials and members of the National Civic Federation—received a jolt when President Theo J. Shaffer of the Amalgamated Association of Iron, Steel and Tin Workers, tonight declared absolutely that he had no official knowledge of such proceedings, and that such moves had been started it did not have the official sanction of the organization. Nevertheless, the subject will not drop, and tonight it is said the conciliatory committee of the Civic Federation, already prominent in the matter, is fully prepared to carry on negotiations, and will, if necessary, endeavor to secure the good offices of Archbishop Ireland, Bishop Potter, Daniel Hanna, Seth Low, co-members of their organization, to give such prominence to the committee that the proposal will be received by the Steel corporation.

In the meantime both sides to the controversy make claims of a victory. The steel people point to the gains they have made all along the line in the way of securing men and starting plants, while the Amalgamated officials say that instead of losing ground the association is gaining every day, and that the strike is being won. Columbus, S. C., Aug. 26.—Five hundred operatives at the Olympia, Cranby, Richmond and Capital City Cotton mills, who refused to make up the time that will be lost on Labor day by working six hours overtime last Saturday, were denied admission to the mills this morning and were notified of their suspension for a week.

Claims Are Ridiculed.

The steel people ridicule the claims of the association, and point to the failure to induce the South Chicago and Duquesne men to go on strike as an evidence that the strength of the Amalgamated association has departed. The officials say the only plants at which they expect difficulty are at Star and Lindsay. The Amalgamated officials, but they expect to overcome all troubles there and have the mills running full at an early date.

MAKE WAR ON BLACKS.
Mob Attacks Negroes and Destroys
Their Houses.

New York, Aug. 26.—South Camden, N. J., was the scene of trouble between negroes and whites last night. The affair might almost be termed a riot. A negro was arrested by the police and the rioters were dispersed. A number of people on both sides were injured, but no fatalities are reported.

QUIET AT SAPULPA, I. T.

Sapulpa, I. T., Aug. 26.—Demonstrations against negroes came to a sudden end with the arrival of Deputy United States Marshal Bud Trail and Captain White. Marshal Bennett instructed them to arrest all offenders and send them to the penitentiary.

AND LEFT TO PERISH IN KLONDIKE

Seattle, Wash., Aug. 26.—Edward Mortimer, a gray haired miner 68 years old, is the center of a story sensational in Klondike. He is said to have been kidnapped and lowered into a shaft on Thistle creek, 175 miles from Dawson, thirty-five feet deep. His captors demanded \$600 as the price of his release, but on being told that he had no money, left him, apparently, to perish.

OF REPRESENTATIVES.

Austin, Tex., Aug. 26.—The house of representatives today adopted, by a vote of 52 to 38, after a lengthy discussion, the following resolution, introduced by Mr. McFall:

"Be it resolved by the house of representatives of the legislature of the state of Texas, that the principles of the principles of a republican form of government; that we recognize in the United States Steel corporation an organization which embodies all the evils of the trust, monopoly and 'community of interests' idea, and one which, by reason of the manner and amount of its capitalization and plan of operation, may be said to be the very head and front of the offending system; that we heartily sympathize with the Amalgamated association in the contest which it is now waging with the United States Steel corporation for a just and equitable recognition of its union."

STRIKERS WERE RIOTOUS.
Make an Attack on Colored Man and
Defy the Authorities.

Canal Dover, O., Aug. 26.—There was a slight clash here today between the authorities and strikers when a train stopped at the sheet mills and left off a colored waiter who had been brought from Pittsburg. A crowd of strikers at once surrounded the man and demanded his business. The mayor and police tried to protect the crowd, and it is claimed the mayor struck one of the strikers with a club, but this he denied.

USE THE CAMERA.

Chicago, Aug. 26.—Striking machinists have taken up the camera as a means of evading Judge Kohlsaat's injunction prohibiting them from photographing the Ailsa-Chalmers company plant. Since there is nothing in the injunction prohibiting the strikers from taking pictures, the strikers have transformed into amateur photographers, and every time a non-union man enters or leaves the works his picture is taken.

ANOTHER PEACE EFFORT.

San Francisco, Aug. 26.—The strikes presented a few new phases today. A delegation from the Ship Owners' association called upon various members of the executive committee of the Ship Owners' association to learn if there was any possibility of bringing the opposing factions together.
